<b>Summary for ARTG Entry:</b>	146988	4Life Transfer Factor Plus
<b>ARTG entry for</b>	Medicine Listed	
<b>Sponsor</b>	4 Life Research Pty Ltd	
<b>Postal Address</b>	Unit 1 Building C 46 Brookhollow Avenue, BAULKHAM HILLS, NSW, 2153 Australia	
<b>ARTG Start Date</b>	2/11/2007	
<b>Product category</b>	Medicine	
<b>Status</b>	Active	
<b>Approval area</b>	Listed Medicines	

**Conditions**

Colouring agents used in listed medicine for ingestion, other than those listed for export only under section 25 of the Act, shall be only those included in the list of 'Colourings permitted in medicines for oral use'.

The sponsor shall keep records relating to this listed medicine as are necessary to: (a) Expedite recall if necessary of any batch of the listed medicine, (b) Identify the manufacturer(s) of each batch of the listed medicine. Where any part of or step in manufacture in Australia of the listed medicine is sub-contracted to a third party who is not the sponsor, copies of relevant Good Manufacturing Practice agreements relation to such manufacture shall be kept.

The sponsor shall retain records of the distribution of the listed medicine for a period of five years and shall provide the records or copies of the records to the Complementary Medicines Branch, Therapeutic Goods Administration, upon request.

The sponsor of the listed medicine must not, by any means, intentionally or recklessly advertise the medicine for an indication other than those accepted in relation to the inclusion of the medicine in the Register.

All reports of adverse reactions or similar experiences associated with the use or administration of the listed medicine shall be notified to the Head, Office of Product Review, Therapeutic Goods Administration, as soon as practicable after the sponsor of the goods becomes aware of those reports. Sponsors of listed medicines must retain records of such reports for a period of not less than 18 months from the day the Head, Office of Product Review is notified of the report or reports.

The sponsor shall not supply the listed medicine after the expiry date of the goods.

Where a listed medicine is distributed overseas as well as in Australia, product recall or any other regulatory action taken in relation to the medicine outside Australia which has or may have relevance to the quality, safety or efficacy of the goods distributed in Australia, must be notified to the National Manager Therapeutic Goods Administration, immediately the action or information is known to the sponsor.

**Products**

**1. 4Life Transfer Factor Plus**

<b>Product Type</b>	Single Medicine Product	<b>Effective date</b>	2/11/2007
---------------------	-------------------------	-----------------------	-----------

**Permitted Indications**

No Permitted Indications included on Record

**Indication Requirements**

No Indication Requirements included on Record

**Standard Indications**

Aids, assists or helps in the maintenance of general well-being

**Specific Indications**

Zinc supports normal healthy immune function and white blood cell production;  
 Zinc supplementation in those deficient in zinc may support immune function;  
 Zinc is involved in normal immune function;  
 Adequate zinc intake is essential in maintaining the integrity of the immune system;  
 Colostrum contains specialised proteins that support the immune function including immunoglobulins, IgG1, lactoferrin, and lactoperoxidase. IgG is a key immune-supporting component found in colostrum;  
 Colostrum includes a broad-spectrum of antibodies lysozyme, growth factors, and cytokines. The immune components present in colostrum are well recognised for the proper function of the human immune system;  
 Colostrum contains the same immune factors found in human breast milk. including: immunoglobulins, oligosaccharides, growth factors, lactoperoxidase, lactoferrin, bioactive peptides, nucleosides, lysozyme, and cytokines;

**Warnings**

Products containing bovine colostrum powder contain lactose and cow's milk proteins (or words to that effect). This product is not suitable for use in children under the age of 12 months except on professional health advice.
